ABOUT US

Borneo Alliance Oilfield Services is one of the top performing oil and gas service providers in Sarawak, Malaysia.

Borneo Alliance is a homegrown independent Oilfield Solutions company that prides itself in providing value to O&G operators in Malaysia as well as regionally. Supported by globally renowned technology companies, Borneo Alliance strives to address customers' pain points while unlock unrealize potential to optimize customers production and business processes in order to achieve solid returns.

Borneo Alliance aspires to be a regional player with Malaysia as its hub and Sarawak and Sabah as its market. Backed by our entrepreneurial spirit, we seek to leverage the technical expertise, experience and network the company possesses, to create a distinct mark in the areas we operate.

Being a young company, Borneo Alliance brings a fresh perspective and approach towards customer service by creating a collaborative effort between parties to achieve the desired goals. We believe in transparency, integrity and most of all, a commitment to achieve a win-win outcome to any arrangement it undertakes. Together we make things possible.

CORPORATE SOCIAL RESPONSIBILITY

Business to Business to Society—with an emphasis on society. Our CSR services anticipate global economic trends to help us play a positive role in the communities we serve.

Corporate sustainability starts with a company's value system and a principles-based approach to doing business. This means operating in ways that, at a minimum, meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption. Responsible businesses enact the same values and principles wherever they have a presence, and know that good practices in one area do not offset harm in another. By incorporating the Ten Principles of the UN Global Compact into strategies, policies and procedures, and establishing a culture of integrity, companies are not only upholding their basic responsibilities to people and planet, but also setting the stage for long-term success.

Our key challenges and initiatives are focused on Governance and operational excellence; Health, Safety and Environmental issues; and Human Resources and Society.

Therefore, Borneo Alliance designed a complete set of CSR services specifically dedicated to helping our clients protect biodiversity, reduce their environmental impact, improve their safety

In addition, because CSR is part of our DNA and our expertise, Borneo Alliance is strongly engaged in promoting Quality, Health & Safety, and Environmental & Social Responsibility in our operations. We aim to continuously improve internal processes involving our employees, suppliers and better contribute to the well-being of society, on a local and global scale.

At Borneo Alliance, we act with determination and confidence are proud to be UN Global Compact supporters. The Ten Principles of the United Nations Global Compact are derived from: the Universal Declaration of Human Rights, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work, the Rio Declaration on Environment and Development, and the United Nations Convention Against Corruption.

HQSE

Quality, Health, Safety and Environment (HQSE) is the driving force behind Borneo Alliance's commitment to improving its sustainability and environmental awareness.

Borneo Alliance ensures that our people have a safe, health and secure workplace; this is a fundamental right. This policy explains how we provide this.

Borneo Alliance will:

- Care for our people;
- Identify and manage hazards to eliminate or mitigate resultant risks;
- Prevent injury, ill-health, pollution and loss resulting from our activities;
- Be responsible in our approach to protecting the environment and minimizing our impacts;
- Deliver continual improvement in our health, safety, security and environmental performance.

Borneo Alliance does this by:

- Ensuring we have exemplary HQSE leadership and management;
- Having effective, efficient and applied HQSE management systems;
- Understanding and complying with all legal, industry and other external requirements;
- Establishing and attaining clear HQSE objectives;
- Learning lessons from our incidents and preventing reoccurrence;
- Engaging with our people on HQSE issues;
- Working with our customers, regulators and others to promote continuous improvement;
- Training our people to be competent and safe in undertaking their roles;
- Helping our supply chain and partners to meet our own policy obligations;
- Promoting a positive HQSE culture that drives HQSE improvement;
- Following Borneo Alliance Industry shared Life saving rules
- Encouraging anyone to stop a job if they perceive any HQSE shortfall.
- Our policy shall be reviewed periodically to ensure that it remains relevant and documented, published, maintained, and made available to interested parties, and communicated to all personnel working for and or on behalf of Borneo Alliance.

LIFE-SAVING RULES

Bypassing Safety Controls

Obtain authorisation before overriding or disabling safety controls

- I understand and use safety-critical equipment and procedures which apply to my task
- I obtain authorisation before:
 - disabling or overriding safety equipment
 - deviating from procedures
 - crossing a barrier

Confined Space

Obtain authorisation before entering a confined space

- I confirm energy sources are isolated
- I confirm the atmosphere has been tested and is monitored
- I check and use my breathing apparatus when required
- I confirm there is an attendant standing by
- I confirm a rescue plan is in place
- I obtain authorisation to enter

Driving

Follow safe driving rules

- I always wear a seatbelt
- I do not exceed the speed limit, and reduce my speed for road conditions
- I do not use phones or operate devices while driving
- I am fit, rested and fully alert while driving
- I follow journey management requirements

Energy Isolation

Verify isolation and zero energy before work begins

- I have identified all energy sources
- I confirm that hazardous energy sources have been isolated, locked, and tagged
- I have checked there is zero energy and tested for residual or stored energy

Hot Work

Control flammables and ignition sources

- I identify and control ignition sources
- Before starting any hot work:
 - I confirm flammable material has been removed or isolated
 - I obtain authorisation
- Before starting hot work in a hazardous area I confirm:
 - a gas test has been completed
 - gas will be monitored continually

Line of Fire

Keep yourself and others out of the line of fire

- I position myself to avoid:
 - moving objects
 - vehicles
 - pressure releases
 - dropped objects
- I establish and obey barriers and exclusion zones
- I take action to secure loose objects and report potential dropped objects

Safe Mechanical Lifting

Plan lifting operations and control the area

- I confirm that the equipment and load have been inspected and are fit for purpose
- I only operate equipment that I am qualified to use
- I establish and obey barriers and exclusion zones
- I never walk under a suspended load

Work Authorisation

Work with a valid permit when required

- I have confirmed if a permit is required
- I am authorised to perform the work
- I understand the permit
- I have confirmed that hazards are controlled and it is safe to start
- I stop and reassess if conditions change

Working at Height

Protect yourself against a fall when working at height

- I inspect my fall protection equipment before use
- I secure tools and work materials to prevent dropped objects
- I tie off 100% to approved anchor points while outside a protected area

MANAGEMENT SYSTEM

As expected from any well-managed company, Borneo Alliance operates an Integrated Management System that relies upon severe quality controls of internal policies, processes and procedures, which work combined as a single unit in compliance with the standards of ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018.

We continuously seek not only to meet the key business management standards of the industry, but also to improve our business processes and performance, with a constant concern on maximising efficiency in order to ensure Quality Assurance, Management of Risk and Quality Control is implemented in every aspect of the business, guaranteeing our customer's total satisfaction.

OUR SERVICES

OUR SERVICES

Borneo Alliance offers reliable, safe and cost effective products and services to the oil and gas industry clients in Sabah and Sarawak.

Mechanical Fabrication Installation And Maintenance

 <p>Piping and pipeline fabrication</p>	 <p>Structural support and platform fabrication</p>	 <p>Dry food and chiller container fabrication</p>	 <p>Offshore construction/ modification work</p>
 <p>Onshore/offshore installation</p>	 <p>Shutdown works</p>	 <p>Pressure test for launcher/ receiver</p>	 <p>Pre-commissioning / commissioning support</p>
 <p>Blasting and painting services</p>	 <p>Demolishing services</p>	 <p>Plant maintenance services</p>	 <p>Provision for supplying approved lifting frames for compressors and welding machine</p>
 <p>Pressure testing</p>	 <p>Fully equipped workshop including overhead crane</p>		

Scaffolding

- All crews are certified with CITB UK standard
- 10,000m³ materials in hand

Material Types :

- Conventional Tubes & Fittings (Material Grade : BS EN 12811)
- Layher System
- Light Alloy Aluminium System scaffolding

Types of scaffolding structure services:

Other services :

Pipeline Services

Pressure Testing	Water Flushing	Hydro-Jetting / Retro-Jetting	Pigging Process	Chemical Cleaning
Hot Oil Flushing	Purification of Oil	Video / Camera Inspection	Nitrogen Services	Controlled Bolting (Including Flange Management)
Fabrication, Installation, Testing & Flushing of Hydraulic Tubing & Piping Systems	Nitrogen Helium Leak Testing	Valve Repair & Testing	Fabrication & Installation of GRE Pipes	Waste Water Treatment

HVAC Services

 HVAC systems including ex-proof system	 Piping and pipeline fabrication	 Room air conditioners	 Split units, packaged type
 VRV systems, liquid chillers	 Cooling towers, air handling units	 Chilled water and condenser water pumps	 Cold storages and low temperature containerized freezers and chiller

Civil Services

Elevation Work

Interior & Exterior
Decorative Work

Reinforcement &
Concrete Work

Brick Work

Plastering

Curtain wall systems

Stone cladding

Steel structure
Architectural finishes

E&I

Electrical Capabilities:

We provides full spectrum of electrical services in the oil & gas (onshore & offshore) industries.

Key Electrical Installation Services include:

Instrumentation Capabilities:

Our team of engineers specialize in delivering exceptional quality instrumentation works in the oil & gas (onshore & offshore) industries.

Key Instrumentation Installation Services include:

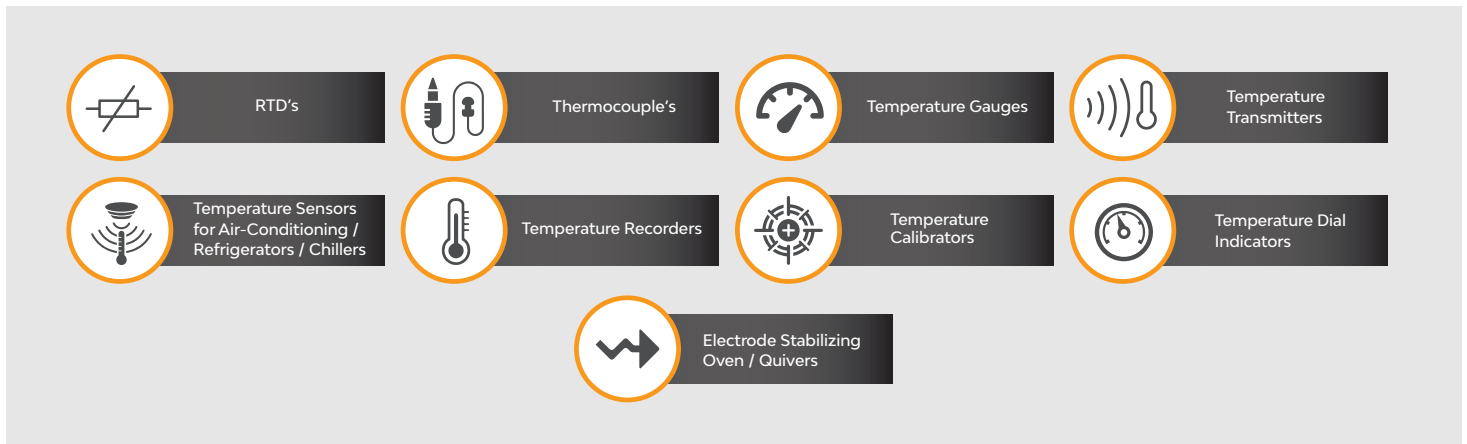

PRESSURE INSTRUMENTS CERTIFICATION & CALIBRATION

TEMPERATURE INSTRUMENT CERTIFICATION & CALIBRATION

ELECTRICAL EQUIPMENT CERTIFICATION & CALIBRATION

Multimeters / Clamp on Meters / Electrical - Calibrators	Continuity Testers / Earth Testers	Electrical Calibrators	Decade Box	Portable Welding Machines
Power and Control Cables	Distribution Boards / Junction Boxes	Electrical Hand Tools	Electrode Stabilizing Oven / Quivers	Workshop Equipment / Machines

OTHERS

Vernier Caliper calibration

Torque Wrench Calibration

DRILLING INSTRUMENTS

Torque Gauges & Systems

Mud Pressure Gauges

Chart Recorders

Weight Indicators Systems

Load Cells & Pressure Sensors

Catering

Our goal is always to offer the best and the most cost-effective catering solutions. Utilizing our own personnel and equipment, we are confident to offer our clients the best catering and associated services.

We hire local experienced and qualified personnel forming excellent catering team. We have sufficient experience on platforms and barges in the O & G industry . It's something we do exceptionally well and we are confident you will not find a better option elsewhere.
